Native American/Alaskan Native								
White	X	X						
Multiracial	X	X						
<b>Subgroups:</b>								
Students with Disabilities								
Limited English Proficiency								
Eligible for Free/Reduced Meals								

<b>CANDIDATE REFLECTIONS:</b>
<p><b>What did you learn about leadership from completing this field experience? How did this learning relate to the knowledge, skills and dispositions required of an educational leader? How did it enhance your ability to lead?</b></p> <p>This field experience directly relates to being a leader, a Data Leader. I feel that the Using Data Process is an excellent way to get our teachers thinking about data in a way that makes sense for us and will reflect in the teaching of our students. I would like to speak with my principal further about leading these data team meetings in this way.</p>
<p><b>Did (or could) this field experience impact student learning? If so, how?</b></p> <p>This field experience will impact student learning if we work together on the data team and use this process to help us analyze class/school data.</p>

**How could this field experience be modified to make it more meaningful and relevant to aspiring educational leaders?**

This field experience will become more meaningful when it is actually being used to teach the teachers at my school about the Using Data Process and all the benefits that come from this process.
